

KENT TSAI

Bay Area, CA | (909) 576-6827 | www.kenttsai.com

SENIOR PRODUCT DESIGNER | AI-NATIVE DESIGNER

PROFILE

Senior Product Designer with 7+ years of experience designing AI, consumer, and enterprise products. Specializes in 0→1 product development, complex workflows, product UX strategy, and turning ambiguous problems into scalable experiences. Experienced partnering with product and engineering teams from concept and prototyping through launch, with a track record of measurable improvements in engagement, conversion, and design standards.

EXPERIENCE

Microsoft | Remote, CA | 2024-Present

Senior Product Designer (Contract)

- Led end-to-end product design strategy for health remediation workflows within AI Workspace, streamlining multiple tools into a unified user experience.
- Drove UX strategy for OneRAI, Microsoft's responsible AI compliance platform supporting 4,000+ AI products across the organization.
- Designed and launched the organization's first AI Compliance agent, reducing assessment review cycles from 12 days to 3 days while improving policy adherence.
- Partnered closely with product and engineering to rapidly prototype concepts using AI tools including VS Code Copilot and Figma Make, reducing design-to-production time.

Chegg | Santa Clara, CA | 2021-2023

Senior Product Designer

- Led product design for Chegg's conversational AI experience, increasing student engagement by 158% through higher question submission rates.
- Designed and launched an educator referral initiative that doubled conversion rates and accelerated user acquisition within three months.
- Established and facilitated weekly design critiques to elevate design quality, strengthen feedback culture, and increase cross-team visibility.

Allen Institute for AI | Seattle, WA | 2020-2021

Product Designer

- Designed a scalable badging system that improved accessibility and discoverability for millions of research papers.
- Introduced citation-based search capabilities, increasing internal search engagement by 5%.

Kai Ming Head Start | San Francisco, CA | 2019-2020

UX Consultant

- Built and implemented a custom design system to unify brand identity and improve consistency across digital experiences.
- Optimized site architecture, SEO, and information hierarchy, improving Google search visibility from the 2nd to 1st results page.

eCommerce Marketing | City of Industry, CA | 2013-2018

Digital Brand Manager

- Held various eCommerce marketing roles helping brands establish digital presence and increase marketplace sales.
